

Sikorsky Phase Maintenance Inspection Kit

Sikorsky 360/720 and 480/960 Hour Phase Maintenance Kits were designed based on OEM expertise and years of UH-60 maintenance experience.

MAINTENANCE KIT BENEFITS:

- Developed to meet the requirements to perform a proper 360/720 or 480/960 hour PMI
- No extra/unnecessary parts
- Full Sikorsky technical publication compliance and OEM expertise
- Color Coded packaging labels to easily connect each sub-kit to an Inspection Zone
- Matching color coded labels on each part to reference the Install Location & Inspection Zone

Please contact your Sikorsky account representative for more information, pricing, and lead times.
